

OUTBREAKS FEARED IN CITY OF MEXICO

THOUSANDS OF ARMED INSURGENTS ARE IN AND NEAR THE CITY AWAITING THEIR TIME.

PEACE NEGOTIATIONS

Minister of Foreign Affairs States That the Signing of the Peace Negotiations Will Take Place Soon.

(By United Press.) Mexico City, Mexico, May 4.—With eight thousand armed revolutionists in the city and two thousand within striking distance outside, the "Siempre Viva" celebration tomorrow commemorating the defeat of the French in 1902 may elicit a serious uprising at the capital.

Government officials belittle the widespread rumors of threatened attacks and Minister of Foreign Affairs De La Huerta asserted there is every prospect of peace within three days.

A general fear of attack however prevails as the federal forces in the city are depleted as a result of sending troops into the interior.

At El Paso, Texas, May 4.—Peace without a prolonged revolution in Mexico is inevitable it is firmly believed here today. It is stated that even if Madero and the peace commissioners of the Diaz government draw up permanent peace plans the growing widespread activity of independent rebel bands is now beyond control of either Madero and the government.

Expect Peace. Washington, May 4.—Official notices from Mexico City received at the White House today state that minister of foreign affairs De La Huerta expects a peace arrangement to be signed with the revolutionary leaders today.

Begin Negotiations. (By Associated Press.) El Paso, May 4.—Pedro Carbajal, representing Mexico, and Dr. Gomez, heading the revolutionists, began peace negotiations today. It was stated at the Madero camp by one of the revolutionists that the resignation of President Diaz was included in the list of the revolutionist demands.

WILL PUT QUESTION TO VOTE OF PEOPLE

Million Dollar Park Proposition for Milwaukee Will Be Put to a Referendum Vote.

(By United Press.) Milwaukee, May 4.—The socialist administration today announced it had determined to let the people of Milwaukee decide whether or not the city shall buy the million dollar park on the upper Milwaukee river. The question will be put to a referendum vote at the municipal election next April. In the meantime the common council will go ahead and close the land contracts taking over the property. Only twenty-five dollars will be paid down on these various tract tracts. If the people decide against the project the tract contracts will be dropped.

ROOSEVELT HANDLES STRIKE SITUATION IN SIGNED ARTICLE

Former President Takes Up Matter of the Los Angeles Times Dynamiting Without Gloves.

(By Associated Press.) New York, May 4.—Ex-President Roosevelt will have a signed article entitled "Murder in murder" in the outlook this week, dealing with the dynamiting of the Los Angeles Times and the arrests recently made by Detective Burns.

Roosevelt says in part: "A question of organized labor or organized capital, or of relations of either with community at large, has nothing whatever to do with this issue. All we are now concerned with is a grave and vital question of fact, whether or not the accused men have been guilty of murder, and of murder under circumstances peculiarly full of foulness and atrocity."

WANTS OFFICE MADE AN APPOINTIVE ONE

Senator Scott Tells Why He Thinks Insurance Commissioner Should Be Appointed, Not Elected.

(By Associated Press.) Madison, Wis., May 4.—Senator George E. Scott, in a statement today, defended his bill to make the state insurance commissioner appointive, declaring that the office is similar in its jurisdiction and duties to that of the banking commissioner, various state commissions and other offices which are ruled by appointive officials. This bill, No. 3325, provides that the commissioner of insurance shall be appointed by the governor with the consent of the senate for a term of four years. It is an office not provided for in the constitution and is the only elective office which can be made appointive without amending the constitution. Senator Scott pointed out the proposed method of selection is followed in nearly all states.

"Every state," he said, "involving supervision of large interests to technical training, is now appointive. These include the railroad commission, the tax commission, the dairy and food commissioner, the commissioner of labor and the commissioner of banking.

"The duties of the commissioner of banking are most similar to those of the commissioner of insurance. Both supervise the accumulation and safekeeping of millions of trust funds reaching directly almost every citizen. In addition the commissioner is required or ought to have the legal knowledge to judge of the kind of contracts or policies by which the rights of policy holders must be determined, and understand the actuarial computations on which the companies are determined. The acts or commissions directly affect the interest of citizens of this state to the amount of millions of dollars not alone at the time, but often through the lifetime of the insured.

"The commissioner of banking is now appointed by the governor for a term of five years. No one familiar with his duties would suggest that he be elected."

The senator argued also that there is a strong movement everywhere to reduce the number of elective offices and centering the voters' attention on a few officers in executive and legislative positions to whose selection much greater care and attention can thus be given and who can thus be held responsible. He cites Hughes, Roosevelt, U'ren, Ben Lindsey and Woodrow Wilson as advocates of this reform.

"The change proposed in this bill is right and it should be made now," concluded Senator Scott.

BAD NAMES CALLED IN ITALIAN TRIAL

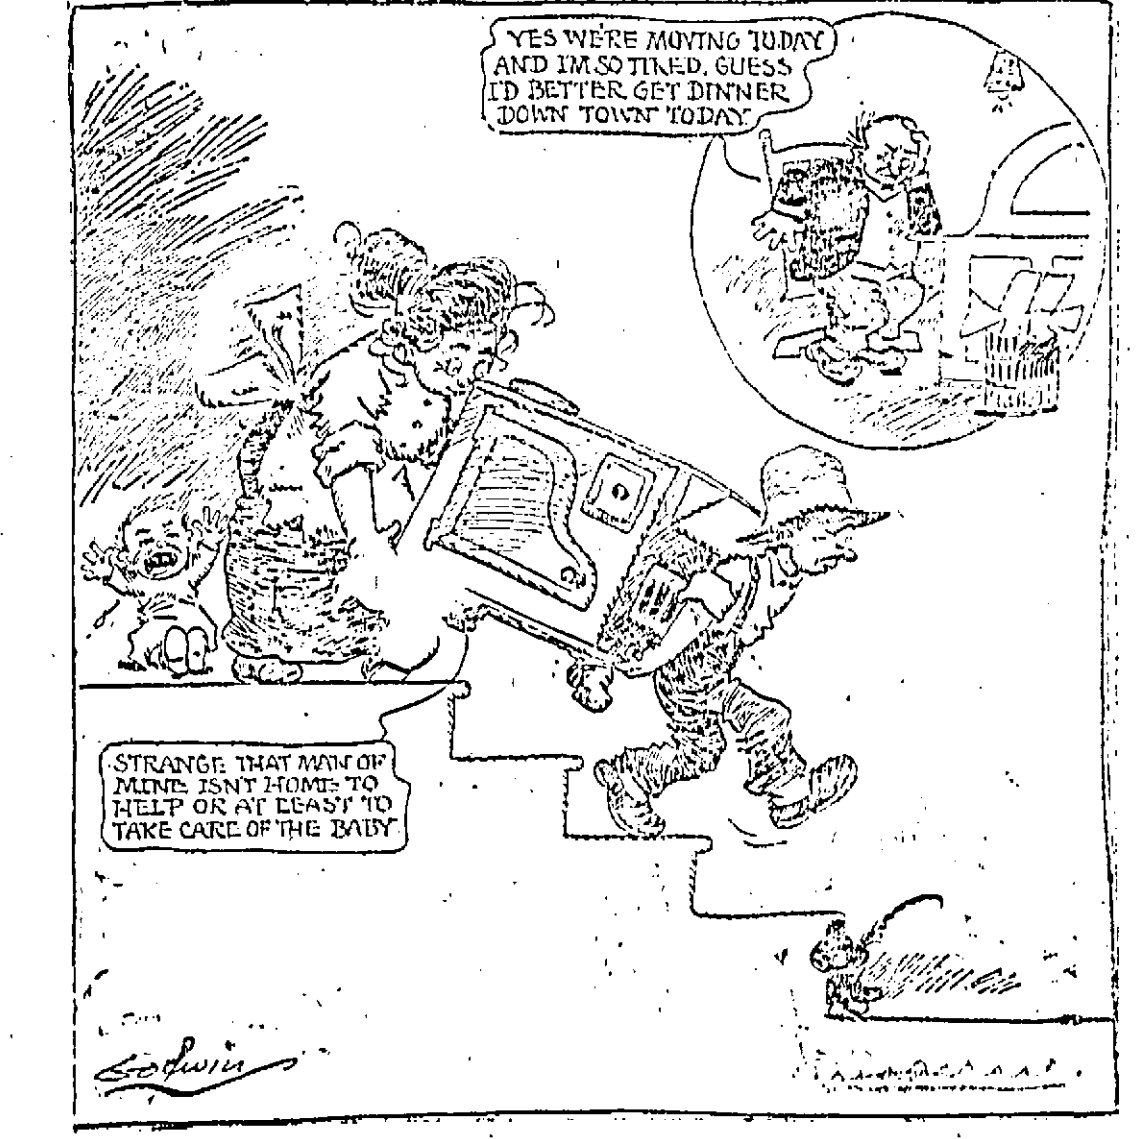

Prisoner and Witness in Camorrista Cases, Confronting Each Other, Hurl Invectives.

(By Associated Press.) Viterbo, May 4.—At the trial of the Camorrista today, Abbatmaglio, the informer, confronted Salvi and Corato, both of whom he denounced as having taken part in the murder of Cuccolo.

He repeated his original accusations against Salvi, the latter denying each in turn.

Then the two exchanged invectives, ward words ending thus: Abbatmaglio said: "You are an assassin."

Salvi said: "You are like a cow when you are called an ass with horns. You have a muddy conscience which you have sold to the Carabinieri."

REHEARSED DETAILS OF DIETZ'S CAPTURE IN HAYWARD TODAY

State Continued Taking of Testimony in Trial, Dietz Cross-examined Witnesses.

(By United Press.) Hayward, May 4.—When the Dietz trial opened at 9 a. m. Henry Thayer, deputy sheriff, took the stand. He testified he was firing from the Dietz barn for over an hour during the battle of Oct. 28, last, when H. Appleby of Madison, United States marshal, testified today. He with twenty-five men attempted to capture Dietz in 1905. Angus Campbell, another deputy, testified he fired over 100 shots at Dietz, while the latter was in the barn. F. L. Gilbert, former attorney general, arrived here today on a freight train with O. L. Munson, the governor's secretary. He attempted to bring Dietz to peace plans but failed. Both will testify this afternoon. Dietz cross-examined all witnesses but without fire or changing the testimony to any extent.

Many witnesses today testified in the Dietz trial. All testimony tended to show that Deputy Harp came to his death by a bullet from the Dietz stronghold during the famous fight. Cross examination by John Dietz and members of his family assumed a languid air today and it was plainly evident they were discouraged. F. L. Gilbert and Col. Munson will testify this afternoon. They notified Dietz that warrants were out for his arrest. This is to prevent the defense from making a plea that they had a right to protect themselves against invaders and one attempt was made by Sheriff Madden to serve a warrant. Sheriff Clark was today reproprimanded by Judge Held for allowing Dietz to stop in a saloon last night while en route to the jail.

In the examination of witnesses today Dietz attempted to show that the reports of shots the deputies heard about the house were the reports of explosive bullets fired by the deputies.

DEBATE CONTINUED IN THE HOUSE TODAY ON FARMERS' MEASURE

General Discussion On This Important Bit of Legislation Is Drawing To A Close.

(By United Press.) Washington, May 4.—Debate in the house on the so-called Farmers' bill was continued today. The house leaders expressed the hope that the measure might be brought to a vote on Saturday.

The house rules committee today appointed Rep. Hardwick, Ga., and Lenroot, Rep. Wis., and Pew, Dem. N. C., a subcommittee to draft the resolution for a probe of the sugar trust introduced by Hardwick yesterday. The committee is ordered to broaden the scope of the resolution so as to include all branches of the sugar industry and report favorably to the house.

WILL ASK CONGRESS TO AID PURIFYING

Of the Elections in the State By Aiding in National Corrupt Practice Legislation.

Madison, Wis., May 4.—Designed to prevent the interference of national political leaders in the political campaigns of the state, the Assemblyman Mahon of Shawano county this morning introduced in the assembly a memorial to congress requesting cooperation in preserving the purity of elections. Recent events of one kind and another in state elections inspired today's resolution, which follows:

Memorial To Congress. Whereas, the state of Wisconsin, as well as many other states, has acted in conformity with the progressive thought of the time in passing laws designed to limit corruption at elections, indeterminate campaign expenditures and the power of money in politics; Whereas, all national political parties have pledged the enactment of legislation which will place a strict control on election expenses with a view of purifying both national and state elections; Whereas, the states are without power to prevent or control the sending in of money or literature from without the state to control or influence state elections, and for this reason must rely upon the cooperation of congress in its efforts to preserve the purity of elections and to limit the indeterminate use of money in politics; therefore, be it

Resolved, by the assembly, the senate concurring, that our delegates in congress are hereby requested to use their best efforts to secure such congressional legislation as will effectively preclude the sending into any state of money or campaign literature in violation of the spirit of the corrupt practice law of that state. That, in order to determine the sources of all campaign literature sent into any state through the mails or by interstate commerce, the persons sending such literature shall be required to submit to the postal authorities a copy of each political paper, circular or pamphlet sent into such state, together with a statement of the amount of such literature shall be required to submit addresses of the persons paying for the same; and that our delegates in congress be further requested to make every effort to secure a complete cooperation on possible between the national and state governments that the purity of both national and state elections may be assured.

Both declared other indictments will follow rapidly.

LEGISLATURE SHOWS DESIRE FOR WORK

HASTENING WORK SO THAT AN ADJOURNMENT CAN BE HAD SOON.

MANY BILLS PASSED

Total Is in Excess of the List of the Last Session at the Present Time.

(By United Press.) Madison, May 4.—The assembly committee on elections today recommended for passage the bill providing for non-partisan elections of county officers.

The senate committee on education and election recommended for concurrence the McConnell "Mary Ann" bill providing a second choice at primary elections.

An amendment was however recommended to abolish the provision that a candidate must obtain ten per cent of his party vote to qualify as nominee. The assembly killed the Johnson bill providing to limit sessions of the legislature to one hundred twenty days, with a provision that the sessions might be lengthened twenty days longer by a two-thirds joint vote. That the legislature has a more and more "down to business" attitude was evidenced today when it was shown that one hundred and ten bills are now filed with the governor, the majority of which were filed during the past few days. This number, it was pointed out, is in excess to date of that number during the nineteen also session.

In each instance the home college team will have the affirmative side of the question, with the visiting teams debating the negative.

Haymarket Riot Recalled. Chicago, Ill., May 4.—The Chicago police department in its ordinary routine of business today recalled the famous Haymarket riot, which occurred just twenty-five years ago tonight. In the fatal day a force of blue-coats marched out of the Desplaines street station under order of Lieutenant Bonfield to suppress a riotous mass meeting of militant Anarchists in the Haymarket square at short distance away. The arrival of the police at the scene of the meeting was met with a deadly bomb hurled into their ranks from the group of Anarchists. Six police officers were killed by the deadly missile and three-score others suffered severe wounds. A fifth Anarchist died on the spot, a fifth committed suicide in jail and several others were sent to prison for their part in the massacre.

SORTING CONTINUES AT BUT TWO HOUSES

PACKING OF 1910 CROP CEASED AT ALL HOUSES BUT THOSE OF RUMRILL AND BAINES.

OTHER NEWS OF TRADE

Haskins and Schwartz, N. L. Carle, and American Have Finished Work—New Crop Outlook

With three warehouses here completing the work of sorting within the last week there are but two left in the field, packing the 1910 crop. They are the George H. Rumrill and P. S. Baines houses, and work at the first of those will be completed within a week or ten days. Mr. Baines will run for a number weeks longer, although he expects to close down in a week or so as many of the women employees have household duties to attend to, after which they will re-open for the final week.

Work at the Haskins and Schwartz warehouses was finished last Friday after a run of about fourteen weeks. The average force employed here was between thirty and thirty-five hands. A small force is now employed there packing the short grades and restoring order after the sorters.

The final work of sorting at the N. L. Carle warehouse was completed today after a run of three months during part of which time two forces have been at work, one at the Pommer Bros. house and the other in the Carle warehouse. Work was finished at the American warehouse yesterday and all crops will be delivered at this point to be shipped to Madison where it will go to the steamship factory.

Work at this place has been in progress for nearly four months. There has been a slight movement in the last week, amounting to about five hundred or more cases sold or delivered from this point. Among them has been a consignment of 130 cases of '08 from the P. S. Baines warehouse to eastern dealers, and some 170 or 175 cases from the George H. Rumrill warehouse. This latter sale consisted of the '07 and '09 crops. C. J. Jones & Son also reported a fair sale of '09.

At the other houses it is very quiet with only the work of preparing for the spring sale season. J. S. Baines has received a consignment of considerable amount of goods from Colfax, and one car of 1910 from the same point. He has also received another car of the Pennsylvania tobacco.

Outlook for the 1911 crop is good at present as far as any estimate can be made at the present time. The cold weather of the past week has been more or less of a setback to the plants, but where the beds were well covered there was no damage done. All the seed is now sown in the beds and many of the growers report that the plants are up.

There will be a considerable amount of broad leaf tobacco raised by the farmers in this section this season. C. J. Jones & Son report that some 200 acres have been contracted for at the present time in Rock county and more of it may be raised. This, with the regular and no doubt increased acreage of the Spanish variety, will swell the total acreage in Rock county to a figure somewhat above that of last year it is thought.

Some interest is manifested by the dealers here in the National Cigar Leaf Tobacco association convention which is to be held in Lancaster, Pa., next week, beginning Monday. It is thought that there will be several Janesville men in attendance and among the matters which will be discussed considered will be the matter of the tariff on tobacco. It is the opinion of a large portion of the trade that the tariff on tobacco is entirely too high and the results of the recent election in which the two cigar leaf wrapper states went Democratic may point to a definite revision of the tobacco.

Among the dealers here the opinion is prevalent that cigar leaf tobacco should have been included in the list of articles in the Canadian reciprocity agreement so that it would be admitted into Canada at the present time in spite of the high tariff wall, and if this was removed there is no doubt but that it would help the trade in this section materially.

Speeding Up.
There was a cow on the track. The shoe drummer, who had been cutting cards for the cigars, beckoned to the porter.

"Boy is that cow still on the track?"

"Yess, sah."

"How fast is the train moving?"

"Hunt for miles an hour while de cow am on de track."

"And how fast is the cow moving?"

"Hunt five miles an hour, sah."

"Well, here is a quarter. Take a few yards of rope up to the engineer and tell him to hitch the train to the cow. We might make better time."

CHANGED DATE OF GUN CLUB TOURNAMENT

First Annual Tournament of Local Gunners Will be Held May 26 Instead of May 30.

A change has been made in the date of the first annual tournament to be held in this city by the Janesville Gun Club. It was originally planned to hold the shoot on Decoration Day, May 30, but a change in the plans was made necessary and Friday, May 26, was the date selected. Otherwise the plans remain the same. There will be twelve events. The first two will be for amateurs only, although professionals will be allowed to shoot for targets. Merchandise prizes have been offered for the last two competitions. The tournament is in charge of L. L. Nickerson, secretary of the local gun club.

INSPECTED ASPHALT PAVING DONE HERE

Officials of Catavia, Ill. Were Here Yesterday to Look Over Work Done by Contracting Firm.

John Gelas, T. Davis, and J. V. Hurton, mayor, superintendent of public works and one of the aldermen of the city of Catavia, Ill., were in the city yesterday to inspect the asphalt macadam put in for the city by Jackson Shuler, South Second and South Third streets in the Third ward. The road, Graham Co., which had charge of the work here, is seeking a similar job in Catavia, and the officials of that city were here to look over what the company had done in this city before the contract was awarded. From here the visitors went to Rockford and Peoria where asphalt macadam paving work has also been done.

Pretty Spring Suits Specially Priced at \$20.00

Our showing of spring suits comprises the best styles selected from the lines of the best manufacturers in the country. We have this season an unusually attractive line of suits which are priced specially at \$20.00. They are values that would readily command \$25 and \$30 in any of the city stores.

New SHOWING OF SPRING COATS

Our purchases of spring coats this season have been very fortunate. Each week or two the assortment is entirely different. It seems almost impossible to buy spring coats fast enough to keep up the stock. Our connections with certain manufacturers are very favorable, and therefore we have been able to quote exceedingly low prices. Come in and see the present showing. It is probably the very best we have yet had this season.

Rare values at \$10, \$12.50, and \$15.00.

Party Gowns and Evening Dresses

The styles shown here are unusually attractive; many new numbers being added during the past week. Excellent styles in Foulards, Messalines and Marquisettes.

TAFI IN THE WEST.

According to an exchange it appears to be understood in Washington that President Taft will leave for the middle west some time in September next, his purpose being to swing around for two weeks in the states in which there is said to be the greatest opposition to his administration. Neither the manner of the President's reception in what has been described as "the enemy's country," nor the result of his visit to that politically disturbed section, can be measured or even intelligently estimated, in advance of the adjournment of the special session of congress.

It is not difficult to see, however, how Mr. Taft might be greatly strengthened by September, or how his chief opponents might be correspondingly weakened. It is within reasonable probability that he will have succeeded in putting through the measure for the further consideration of which he called congress together. It does not matter how reciprocity shall be brought through the senate; whether with the aid of standstill republican votes, which is not to be expected, or by a union between certain of the insurgents and the democratic minority, which is to be expected, the effect of its passage will be favorable to the administration. This may fairly be said, notwithstanding the alleged opposition to reciprocity in certain parts of the west. The administration's success in putting the measure through will more than counterbalance any disappointment among those who believe that the agreement will work out harmfully to the American farmer.

There is the probability, also, that the proposed unlimited arbitration agreement between the United States and Great Britain may be approved before the President sets forth upon his middle western trip. This, it is unnecessary to say, would add greatly to his prestige. No, also, would he be strengthened before the whole country could be succeeded in inducing congress to adjourn before going too deeply into tariff matters.

On the other hand, it must not be overlooked that he is confronted by a serious split in his party, nor must it be forgotten that affairs in congress may possibly take a turn any day that will upset all calculations. All that seems certain is that by September next it should be possible to determine whether Mr. Taft will be the leader of his party in 1912, as well as the party leadership will be really desirable from Mr. Taft's point of view.

HONORS COOPER.

Collier's Weekly pays the following tribute to Congressman Henry A. Cooper, who represents this district in congress, relative to his efforts in behalf of the direct election of United States senators by the people. In so much as the bill has come out of the Senate committee there is some liability that it will pass this session of congress. Collier's handles the matter as follows, having for an editorial caption: "In Two Years and Nine Months." It says:

"In June, 1908, at the republican national convention at Chicago, an insurgent member of the committee on resolutions fought hard for a platform

declaration in favor of the direct election of United States senators. The insurgent was Henry Allen Cooper, who represents six counties of Wisconsin in congress: Green, Kenosha, Lafayette, Racine, Rock, and Walworth. In the committee he was defeated by a vote of 51 to 1—the one being himself. Alone, he carried his resolution to the floor of the convention and was voted down by 786 to 114, roughly 7 to 1. In April, 1911, Mr. Cooper introduced the same resolution into the lower House of congress, not this time, as a mere recommendation and was voted down by 786 to become a law. It was passed by a vote of 290 to 16; out of 162 republicans in the lower House, only 15 voted against it. On this occasion Congressman Cooper rose to remark blandly that in the language of the Rev. John Jasper of Richmond, Virginia, "the world would move."

Nothing impresses the citizens of a community more than to visit an adjacent city and see how neat and clean and well-kept its streets are. Janesville still has many miles of streets that need attention and the council has begun the work in the proper manner at their last session.

There is nothing like gossip to ruin a man's chances in this world for business success. Sometimes it starts from an idle rumor and before the fact is told it has developed into a wonderful tale with all sorts of trappings that even the originator would not even recognize.

Soldiers are deserting from the maneuver camp on the Mexican frontier because they become discouraged at the rain. If that is all they had to complain of the government is well rid of them as a sunny day soldier only is not of much use to anyone.

Detectives are the new means of astute detectives to learn the plans of the wily brothers and criminals. Something new all the time to catch the criminal is the motto of the up-to-date detective.

In China revolutions are now all the rage. A new one breaks out every few days. It must keep all "Mars" busy flitting about from one country to another to see that all his plans are being carried out.

Tomorrow is Arbor day and the children of Janesville will be taught of the wonders of nature and of the birds and flowers. There is nothing like getting down close to nature.

This investigation of conditions at the state university that is being conducted by a Milwaukee paper has stirred things up considerably. Well, it is time that things were stirred up.

Governor McGovern has signed the workmen's compensation bill and it is now a law. Well, we will wait and see how its provisions work out before approving it.

The Canadian tariff measure has not yet passed the real critical stage in its existence as a measure to relieve the whole people. The senate is still to act upon the matter.

Ohio has its hands full and some of the alleged bribed members are willing to turn state's evidence so as to possibly relieve themselves of all responsibility.

G. A. H. Posts throughout the country are condemning the talk of Secretary McVehar in resolutions that should make that gentleman's own tongue.

It would appear as though the Mexican revolution was not in any way near an end. Now they talk of attacking the City of Mexico itself.

It might not be a wise thing for the weather bureau to send out a tractor for spring and see if it has been delayed in transit.

Has spring quilt fooling with the tea-tongs or is it merely a bluff to make us think that everything is going to be all right?

No doubt the Queen of the May will talk with nasal tones for several weeks to come.

China objects to the Manchurian dynasty and in Mexico they object to the Diaz dynasty.

PRESS COMMENT.

Just About.
Racine Times: A California man who has lived for eight years on nothing but milk has gone insane. Some milk would have done the job in half that time.

What to Expect.
Milwaukee Sentinel: It is said that the Mexican peace conference will be held in the house of a goat rancher. We have no doubt that a thousand or more paragraphs will be written about the goat which is said to be on the eve of escaping from the care of Porfirio Diaz.

'Mid Shot and Shell.
Madison Democrat: Colonel Roosevelt's ambition to be shot in battle may be realized if he gets into another presidential fight. The voters are gathering a lot of political ammunition and will be on the fighting line in 1912.

Poor John.
Milwaukee Free Press: John Dietz evidently does not believe in the old adage about the shoemaker and his last, for he has decided to act as his own lawyer.

Joining the Ranks.
Rockford Republic: Trouble is brewing for members of the Ohio legislature accused of taking bribes. There is some satisfaction in feeling that Illinois is not the only disgraced state.

Doing Pretty Well.
Milwaukee Journal: Gov. Woodrow Wilson reports that the legislature of New Jersey has redeemed all of its pledges made to the people. "The governor is modest, but, then, we all know how he came to do it. For a man who has just broken into practical politics, Mr. Wilson has done wonderfully well."

Sec Is Safe.
Marquette Eagle-Star: Professor T. J. J. See is quite safe in his opinion that every star system is inhabited by living beings, for unless there gets his wireless going in better shape to the outer planets, not even the supreme court is ever going to be able to prove that Professor See is wrong.

All Fed.
Fond du Lac Reporter: Apparently everybody in China has gotten a square meal at last as no famine reports have been received for several days.

The Poor Ump.
Beloit News: President Nollen of Lake Forest told his students yesterday that such rooting as "Hill the umpire" ought to be eliminated from college baseball games. Will the honorable president please tell a waiting world what a baseball game would be worth without the privilege of heaping abuse on the umpire?

Progressing.
Shelbygan Journal: China appears to have a real revolution on its hands. This is a real sign of progress. For the past 5,000 years the Chinese haven't been able to revolute against anything.

Let 'Em Drive.
San Claire Leader: Those who oppose the reciprocity treaty say the passage will drive Americans into Canada. He that says it may, thousands appear to be going anyway, for the authorities say that 200,000 will cross the line in 1911. Barriers such as hills and there will be a contra current, and besides, the American in Canada will still be a very good customer to Uncle Sam.

Heart to Heart Talks.

MILLSTONES ABOUT THE NECK.

Last month jewels to the value of \$30,000 belonging to a New York woman were lost or stolen.

Which points a moral.

Doubtless you have seen an Indian woman decked in her trinkets of vampan and brass. Swags believed to add to the personal charms of Lo, the poor squaw.

Her civilized sister prinks herself out in costly gems with a like purpose.

Both follow the same creation move in this: Among the animals it is the male who seeks to impress the female with his personal charms.

However—

The women are not so much to be blamed. No writer has better brought out the follies of the newly rich in this respect than David Graham Phillips, the late author.

He brings out the fact that—

The costly baubles worn by the women of this set are largely for the purpose of making known the financial ability of their male supporters.

This is how they advertise:

Rather than pay a sandwich man to parade the streets he that wants it known he is rich lends his wife with blinding gems. Society, seeing the money value thus displayed, is apprised that there goes the wife of a millionaire.

Well, you say, one has a right to do as he will with his own.

He has not.

Ethically no woman has the right in a city where thousands live on the verge of starvation to go about uselessly adorned with a hundred and thirty thousand dollars' worth of idle wealth.

Morally she has no right.

Morally, I say, no woman has the right in a place where thousands of little children go breakfastless to school to go gadding about gilded with a fortune of unproductive wealth—wealth that has cost somebody's toll and sweat and blood.

Moreover—

Since the time of Blackstone lawyers have debated the legal side of the question whether one has the right to do as he chooses with his own, but in a Christian sense—

She who, full handed, withholds the cup of water from "the least of them" hangs not gems, but a millstone, about her neck.

MAYORESS AND COUNCIL CLASH.

Appointments Opposed, Hunnewell Woman Refuses to Meet With Body.

Wellington, Kan., May 4.—Mrs. Ella Wilson, mayoress of Hunnewell, Kan., and the five city councilmen are at odds, the councilmen meeting at one place and the presiding officer at another. It was Mrs. Wilson's intention to present the names of Mrs. W. M. Hilton and Mrs. G. A. Osborn for city clerk and city marshal, but she learned the council was prepared to oppose the appointments. With a number of her friends and political supporters Mrs. Wilson met at the feed store of W. E. Hilton, taking with her the clerk's journal. The five councilmen sent a messenger to the mayoress with a note demanding that she appear at the regular meeting place. This she declined to do. Her meeting at once broke up and she took the books home. She refused to say what her plans are for the next meeting.

TUNNEL CAVES IN; ONE KILLED.

Six Are Injured When Mass of Masonry Falls on Workmen.

Chicago, May 4.—One man was killed and six were injured in a "cave-in" in the La Salle street tunnel. Three of the injured men may die. A 12-ton mass of masonry, bricks and stones forcing a portion of the wall of the old tunnel suddenly crumbled, without warning. It fell on the heads of a gang of tunnel miners at work excavating. The man who was killed and four of the others were entombed alive by the mass of masonry that overwhelmed them. Maimed, bruised, and bleeding, the victims were imprisoned more than an hour, while a gang of rescuers made up of fellow workmen and the police worked clearing away the huge pieces of masonry and debris.

FREE REFERENCE LIBRARY AT PUBLIC LIBRARY

Reference and Index to All Articles Appearing in Current Magazines Maintained at Public Library—Facilities Work in Reading Up on any subject.

Do you read periodicals? If so, visit the Janesville Public Library. Of course, you have been at home, old and new. There are magazines by the dozens that you have laid aside so that some day you could read "that article." These magazines were put away perhaps years ago, and some day you find that you need that very account. When you come to look through number after number for an article somewhere among all that pile of books, you find that you can't remember where you saw it. After searching for hours, you give up in despair.

Next time you find yourself in such a predicament, do not waste your time in that manner, but go to the Janesville Public Library. There, in plain sight, all around, the main reading room, you will find what you desire. You will say "how can I find what I want here, for there are more than I had at home? I am more at sea than ever." Of course you are, if you do not know where the key to all this knowledge lies.

Did you know that there was a key? You will find it in Poole's Index and the Readers' Guide to Periodical Literature. These books you will find in the reference room. And you may help yourself to them. Look in these books for the location of the magazines. Under the name of the subject in which you are interested there will be given a long list of articles on this matter by various authors. After these names, first the volume number, and then the page of the magazine will be given. Bearing in mind the volume number and the page, you go to the reading-room where you see the magazines arranged alphabetically around the room. The current magazines will be found in the magazine racks.

If in your search you do not at first succeed, do not become discouraged and leave, but try again. Then if you need any assistance, or a personal guide, just ask the librarian how to get what you want. She or any one of the assistants will be glad to help you. The reading-room belongs to you—to everybody, and you are free to come and read the magazines at will.

ROYAL Baking Powder Economy

The manufacturers of Royal Baking Powder have always declined to produce a cheap baking powder at the sacrifice of quality.

Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is more economical at its price than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food. In England, France, Germany and some sections of the United States their sale is prohibited by law. Alum is a dangerous mineral acid, and all physicians condemn baking powders containing it.

The label of alum baking powders must show the ingredients.

PLEASANT BIRTHDAY CELEBRATION HELD AT COEN HOME

[SPECIAL TO THE GAZETTE.]
La Prairie, May 4.—A very pleasant party in honor of the fiftieth birthday anniversary of Mrs. James Carroll of Janesville, and Mrs. Edward M. Hopkins of Shepewa was held yesterday at the home of the hostess, Mrs. Frances Coen. At noon a very elaborate dinner was served in courses by the Mesdames Glendon and Coen, after which the guests participated in the usual plan on such occasions. All departed feeling well repaid for having met together for a few hours to recall the many happy recollections of bygone years.

Those present were Mesdames Dr. Brown, A. C. Clark, J. T. Barless, E. M. Hopkins, James Carroll, Urban Glendon, Elizabeth Thompson, Darby Coen, Louis Henry, Mary Lowry, Geo. R. McLeay, and the Mesdames Hessel, Scott and Tiesse Konevne.

Travelers' Protective Association, Greenwald, S. C., May 4.—The annual convention of the South Carolina division of the Travelers' Protective Association met here today for a two days session. IMPORTANT MATTERS BEFORE AUTOISTS AT MEETING LAST NIGHT

President of State Association in Address to Local Club on Legislation—Signs to Prevent Speeding Proposed.

At the meeting of the Janesville Automobile club at the Gazette office last evening officers were elected, various committees appointed, and matters of importance to the motorists of the city considered.

M. C. Moore of Milwaukee, president of the State association, was present at the meeting and gave a brief presentation of the matter of obnoxious legislation. He dwelt mainly on the bill, No. 958, which has passed the Wisconsin state senate and is soon to be considered by the assembly. This measure will destroy the defense of contributory negligence on the part of motorists in the case of accidents, and on this account will prevent motorists from taking out liability insurance. According to Mr. Moore this bill, if it becomes a law, will place nearly the entire responsibility in the case of an automobile accident on the autoists, and in denying them of insurance is a hardship without opposition.

It was the opinion of the club members that the matter should be presented before the assemblymen of this district in its true light and the members were urged to write to them in this regard.

The matter of signs on the main tourist road running out of Janesville at the city limits was considered and a committee, composed of George S. Parker, R. R. Powell, and Norman Prieppl, was appointed to confer with the Industrial and Commercial club on the matter. The idea of the signs was that they should bear a warning to autoists on entering the city to observe the speed ordinances and it was thought that the signs might also be used to advertise the city and aid in creating a good impression on out-of-town autoists. The committee will also consider the matter of placing direction signs farther out in the country.

The assessment committee was made up as follows: E. Tracy Brown, P. H. Hiedgett, and E. A. Kommerer. The officers elected at the meeting last evening were: E. W. Eddien, president; E. A. Kommerer, vice-president; and Earl T. Brown, secretary-treasurer.

Sobering was done at the meeting last night in the matter of arrangements for the entertainment of the Chicago autoists who will be in Janesville on June 15.

CAR DERAILED NEAR KELLOGG'S CROSSING
Interurban Car Due Here at 10:45 This Morning Went Off Track South of City—No One Injured.

What might have been a serious accident was narrowly averted this morning when the interurban car due in this city at 10:45 went off the track at Kellogg's crossing about half a mile south of the southern limits of the city. There is a sharp curve across the road at the point where the accident happened and in attempting to take the turn with too much speed the car left the track. The car only jumped the track a short distance but it was sufficient to displace the trucks of the car. There were only a few passengers and aside from a severe jolting no one was injured. Conductor Delaney and Motorman Mesnerick were in charge of the car.

The accident caused a considerable delay in the traffic this morning and it was not until nearly three o'clock this afternoon that the wrecking crew called from Beloit had replaced the car on the tracks. Passengers were transferred from an old express car which was pressed into service at the Janesville end of the line to the Beloit car.

ARRANGING DETAILS FOR CELEBRATIONS FOR JULY 3, 4 AND 5

Committee in Charge of Coming Fourth of July Doings Mapped Out Work.

While the Fourth of July is still two months away the joint committee of the Industrial and Commercial club and of the Harry L. Clifford camp of the United Spanish War Veterans, are busy mapping out the work to be accomplished between now and the date of the "biggest three days Janesville has ever known."

A strange coincidence is that forty years ago the Fourth was celebrated by a big military demonstration in a similar manner to which this year's celebration will be held. The committee are planning this year to bring more soldiers into Janesville at one time than since the war days.

The idea of inviting the companies of the national guard from Monroe, Burlington, Whitewater, Madison, Beloit, Dodge and four companies from Milwaukee has taken form and letters have been sent asking them to come to Janesville for the celebration.

The Light Horse Squadron and the Infantry from Milwaukee will doubt be invited if they accept will also be brought "like" around much to the delight of the small boys along the route. Suitable camping places for the soldiers when they arrive in the city have been secured and they will be camped in different parts of the city.

It will cost considerable to bring this number of soldiers here, the railway fare alone being estimated at one thousand dollars, and the food for the men while here is another important item. This comes under the charge of George Kueck, who is chairman of that committee and acting quartermaster of the encampment.

The fourth battle on the afternoon of the fourth, following the big morning parade, will be a most interesting sight. It is thought that possibly the battle will begin by skirmishing through the city, the "Blue Army" retreating before the "Reds" to the scene of the battle, where the "Blues" will make a vigorous assault. It is estimated this will prove the climax of the afternoon doings. In the evening a big military ball is to be held with a full band to furnish the musical inspiration.

Monday evening, the first of the three days, is to be marked by band concerts and drills by the Eagles drill team. This organization is uniformed in West Point gray and armed with sabers of the regular army type. Hans Juk, the captain, is a former member of the crack West Point squad of regulars sent there to teach the future generals how to drill, and has drilled his men well.

Already communications with the Madison, Beloit, Edgerton, Evansville and other prominent bands in the southern part of the state, have been sent out and answers are expected soon. The famous drum corps of the Hug, Medford Spanish War Veterans post of Milwaukee and of the G. A. R. post of the same city will add martial music and the drum corps from the Rockford camp of the Spanish war veterans will also be invited. This should furnish good music in sufficient quantity and quality.

The work of collecting the funds for the expenses has not yet been commenced. John Golner, chairman and treasurer of the joint committee working upon a scheme of issuing bonds to raise the funds which will be redeemable from funds secured from the concessions and sham battle and other sources.

Fire Alarm: The blazing up of lace curtains in a flat over the Huttenlocher store on West Milwaukee street caused an alarm of fire to be sent in to the department from box 51 about half past six o'clock last night. The flames were smothered before the department arrived.

Defendant Won Case: A verdict in favor of the defendant was brought in by the jury in the civil case of Margaret Reed against Mary Reed, which was tried in Justice Stanley Tallman's court. The dispute arose principally over rent alleged to be due the defendant.

Call Rang: The accidental crossing of wires of the Wisconsin Telephone company's system with those of the fire alarm system caused the blowing of the fire alarm system to tap several times this morning.

Steam Roller Out: The steam roller owned by the city was taken out today for the first time this season for work on the streets.

Buggy Smashed: A grey horse, owned by Street Commissioner Daniel Wilkins, ran away this morning and demolished the buggy to which it was attached.

Going Over Route: President M. C. Moore of the Wisconsin State Automobile association, his mother, Mrs. L. Wanko and Mrs. J. Doyle, were members of an automobile party of Milwaukee people registered at the Hotel Myers last night. The president and his guests, who are going over the route of the Sentinel reliability tour, left here this morning.

Three Hours Late: Passenger train No. 610 due into this city this morning at 9:20 was three hours late this morning on account of trouble even after leaving St. Paul. The exact character of the delay was unknown. Released from Jail: A stranger giving his name as John Mayne, from Atlanta, Ga., and claiming to be a member of a secret organization was arrested yesterday following from members of the order here. The man, however, had money, and apparently acted while under the influence of liquor. His release was secured and arrangements made to get him out of town.

TWENTY-FIVE YEARS AGO TROOPS WERE SENT TO MILWAUKEE

Janesville Guards and Bowler City Rifles Had Taste of Real Warfare In Big Riots.

It was twenty-five years ago this afternoon that the famous order of Adjutant General E. P. Chapman of Madison, sent the formal notification to Captain M. A. Newman of the Janesville Guards and Captain F. A. Kueckli of the Bowler City Rifles ordered for service in the Milwaukee riots.

The order stated that they were to proceed to Milwaukee, where serious labor riots were in progress, at once armed with ball cartridges only, no blanks allowed to be taken. The first order came in the morning and the final orders to start at once about noon.

It was twenty minutes past three when the rifles assembled in their armory and forty answered to the roll call. The guards numbered thirty-nine and had assembled about the same time in their armory. Both companies met at the Corn Exchange and proceeded to the St. Paul depot, where at four the special train took them into active service started.

Beloit, Mineral Point, Darlington and Monroe companies had all passed through earlier in the afternoon and the Governor's guards of Madison, the Custer rifles of Whitewater and the remainder of the First regiment were in Milwaukee already.

There had been some rioting in Milwaukee on the fourth, but twenty-five years ago tomorrow was the first "blood bathed" day that the local soldiers had. The two Janesville companies were stationed at Day View, where the most serious rioting occurred. Co. A the Guards, being in the rear of Co. B the Rifles.

When the two thousand rioters approached the position of the militia they threatened to kill them and burn the buildings. In reply three volleys were fired by the soldiers, Company B in front being the only Janesville Company to actually fire at the strikers.

Co. A was in the rear, but during the remainder of their stay in Milwaukee they were given experience in hard guard duty that was perilous. The two local companies remained on duty after all the rest of the state guards had been returned to their homes, at request of the sheriff of Milwaukee county. It was the thirtieth of the month before they reached Janesville.

Here they were tendered a banquet at the Guards armory. Met at the train by a delegation of citizens and the G. A. R. and the Bowler City band, the two companies enjoyed a lot of speech making and congratulations and then the band escorted the rifles to their armory and the citizen soldiers had finished their tour of duty.

MANY SUBSCRIBING TO FAIR GROUNDS FUND

Committees at Work Selling Stock Announce They Are Meeting With Success.

Success attends the efforts of the gentlemen who are selling the stock subscriptions for the purchase of the old county fair grounds by the business and professional men of the city. Mayor John C. Nichols and Charles Putnam, who are on the subscription committee, reported at noon today they were receiving much encouragement and hoped to be able to close the deal this afternoon.

"As soon as we secure enough funds to buy the grounds we will begin our repairs at once," said Mr. Nichols this noon. "There is much to be done and the sooner we get after it the better we shall be off. The idea has appealed to the citizens generally and we are meeting with successful success in our efforts."

Charles Putnam stated this noon that the purchase of the grounds was now assured but what they wanted was enough money to make the alterations needed. "The park is going to be one of the finest in southern Wisconsin," said Mr. Putnam. "The building of the half-mile track inside the present mile track, the banking of the turns of the mile track for an auto and motor-cycle track, will increase the interest in the affair. The baseball diamond is already in fairly good shape but will be made much better."

PROOF POSITIVE.
"Theorists are fools."
"Is that your theory?"
"Yes."
"Then we will let it go at that."

THE EXCEPTION.
"Show me a man who isn't always skulking behind a woman's skirts!" demanded the militant suffragette.
"How about the fellow who sings in the chorus?" inquired a coarse brute in the rear of the hall.

THE DIAGNOSIS.
"I can't imagine what is the matter with my daughter, doctor. She mopes around all day and seems to be eating her heart out."
"Eating her heart out, eh? If that's the case, she evidently has indigestion."

HEARD HIM.
First Caddy—Bully got a crack on the head this mornin'—but all he said was, "My goodness—oh! sugar—my goodness—I wonder what's the matter with him?"
Second Caddy—He's been caddyding for do just week for a preacher who joined de club.

PRECISELY.
"What, how's everything up tew the city?"
"Everything up tew the city is country just the same as it is here. Of course, after you get inter the city that's different."

BETWEEN NEIGHBORS.
"Ray, Blinde, why don't you wood out your sandalons? They're all going to swell, and are sure to scatter terribly!"
"Why, I'm simply waiting for you to return the wood picker you borrowed of me last summer."

BARELY POSSIBLE.
The beautiful stenographer was alone in the private office of the great financier. Presently a reporter for the Evening Herald arrived. He glanced first at the beautiful stenographer, then looked at the closed desk of the great financier and after that he took a careful survey of the office.
"Mr. Huntington is not in, is he?" he asked.
"I don't believe he is," the beautiful stenographer replied, "but you might look in the waste basket. He may be hiding under some of the papers there."

Trade Combine Cause Increased Prices

There is a movement on foot, all over the country, at the present time to bring about a combine in the monument business. This movement will include every dealer in this territory.

I have always believed in open competition and positively will not join any such a merger or "trade agreement."

My business has been run independently and will continue to run so. Running my business this way I can assure the people a saving of at least 15% (agents commission).

Special 20% and 25% Reductions

Thumbscrew Again, In Vogue.

In olden times thumbscrews were used to torture prisoners into confession and thus gain from them secrets that only intense bodily pain would bring forth; but this, with many other fiendish means of torture, was left behind by advancing civilization. Now, however, it has made its appearance again, but as a means of self-inflicted torture, says Popular Mechanic. It is the newest aid-to-beauty fad in Europe and its mission is to squeeze the tips of the fingers until they change from fat and pudgy to long and tapering.

Fad Too Expensive.

A woman in Worcester, Mass., was surprised at receiving extra large bills for gas used the last two months and on investigating the matter found that her new maid was keeping a tenkettle singing on the gas stove all day long. In answer to her query as to the reason the maid informed her that she felt more like working while the kettle was singing. The maid now works without accompaniment.

Boomerangs of Celluloid.

Boomerangs are now made of celluloid and hard rubber. Celluloid is better than cardboard because it is waterproof, light, very hard to break and can be worked into the peculiar curve and twist so necessary to give the boomerang its singular properties.

Quickness of Dragon Fly.

Dragon flies can catch insects when flying at the rate of 40 or 50 miles an hour.

Foley's Kidney Remedy Acted Quickly

M. N. George, Ironville, Ala., was bothered with kidney trouble for many years. "I doctored, and tried kidney medicines without material benefit. In fact, kept getting worse. I was persuaded to try Foley's Kidney Remedy, and before taking it three days I could feel its beneficial effects. The pain left my back, my kidney action cleared up, and I am so much better I do not hesitate to recommend Foley's Kidney Remedy to all sufferers." Badger Drug Co.

THEATER

"PAID IN FULL."

"Paid in Full," the United Play Company's new production, will be seen at Myers Theatre Saturday May 6, matinee and evening. Acton Davies, the well known writer, says of the play: "After all, if the play is really the thing then there's a new 'thing' in town. It's called 'Paid in Full' by Eugene Walter; it has taken shape at the Astor Theatre and there it is going to remain for an indefinite period. 'Paid in Full' scored an immense success last night—one of the sensational successes of the season. Its boldness, its simplicity and its originality all told in its favor. Here at last was a young American playwright brave enough to dramatize a Harlem flat and its occupants; he had his theme taken right out of every day life on the upper West side and played his dramatic cards so well that he held his base first night audience in hand and not only interested them intensely, but gave them in one act both a great surprise and a real thrill. Young Mr. Walter arrived last night and the management, the Wagenblads and Komper Company is to be congratulated upon the uncommonly fine cast which carried 'Paid in Full' to its great success. 'Paid in Full' can speak for itself, and, more than that, it is one of those plays which pays its audiences with full measure."

"THE ROBBY."—I have always believed that a play dealing with the tremendous power of our human thoughts was really needed upon the stage. Men and women live in the morning and go about their work heedless of the fact that it is their own attitude of mind that brings their success or failure.

That is what is shown in "The Robby," a beautiful new play from the pen of Edward E. Rose and produced by Messrs. Gaskell & MacVitt, which will play at the Myers Theatre, Saturday, May 13, matinee and evening. You can see the effect of thought upon the different individuals. One character is that of a business man happily married to a wife who loves him. But his thought is wrong. He harbors four, doubt and unbelief in the creed that fortune, friends, home, wife, even his own self-respect. How does it all come to pass? "The Robby." It comes direct from three months in Chicago.

Macmillan in Concert is Encouraging Sign.—Francis Macmillan was greeted by one of the largest audiences of the recent season yesterday afternoon in the Stockholder theatre when he came forward in a rather serious and exceedingly exciting program. The career of this gifted young American is one of the most encouraging signs of the times. He is one of the few

native artists who have succeeded in convincing their fellow countrymen as to the worth of their gifts and attainments. He is listened to with as much interest as Kubrick or Elman and his playing seems to evoke a similar measure of enthusiasm.

One is justified, therefore, in estimating his art by the standards that his Bohemian and Russian colleagues have established, and the young American does not suffer by the comparison.

His mastery of the mechanical problems of his difficult instrument is more than adequate. It is of that satisfying completeness that removes from the mind of the hearer all thought of technique and leaves him free to follow the musical message which Macmillan announces so eloquently yet so sanely.

In the lush Congaline, Macmillan entered upon a congenial field. His art is fundamentally vigorous and virile, and he sought in the remarkable passages, with his wonderful elaborations and variations, the strength that underlies his many mechanical complications. His tone took on harmonies as well as power, and he maintained a rhythmical inflexibility that was not to be disturbed by the enormous difficulties of his task. His success with the audience was so pronounced that he was obliged to respond to encore, playing the lush E major piece. This he delivered with crisp and brilliant tone, and with rhythmic control.—Glen Dillard Gunn in the Chicago Daily Tribune, Feb. 6, 1911.

Macmillan will appear at the Myers theatre, Tuesday, May 16.

Vogel's Last Venture.—A local manager who has grown at the proprietor of the Big City Minstrels, is a very large percentage, when he realized the investment extravagantly expended in the outfit and confessed, it when he said: "My stars, Vogel, is no wonder that you demand almost the whole loaf for your receipts. Private palace cars, \$10,000, first part, a superbly equipped orchestra and salaries for fifty people, certainly does take up a power of money and requires a lot of coin to keep the fabric going, and with all your rivals tell me that you are walking on velvet," adding the trueness "The people demand a good deal nowadays." Vogel added an asset as he remarked: "It was not always thus; it is a matter of fact that in 1868 a popular Ethiopian comedian sold his horse and buggy and put a troupe of fourteen people on the road with the proceeds and fairly astonished the natives."

John W. Vogel's Big City Minstrels will appear at Myers Theatre Thursday, May 11.

CONGRESS OF MOTHERS OPENED.

Illinois Women Meet at Charleston—Will Discuss Labor Law.

Charleston, Ill., May 4.—The Illinois Congress of Mothers began its twelfth annual meeting in the normal school here today, the members being welcomed by Superintendent Elwood of the Charleston schools. After a response by Mrs. Louis K. Gillison, president of the congress, an address on "What is Happening to the American Home" was delivered by Mrs. Frances Squire Potter of Chicago.

The congress will be in session until Saturday night, and among the questions to which most attention will be given is the proposed amendment to the child labor law by which children would be allowed on the stage. Mrs. William F. Jefferson will speak on this subject and the congress probably will be asked to adopt resolutions against the proposed amendment to the existing law. Among those on the program are Mrs. Lucy T. Summerlin of Mattoon, Mrs. John B. Sherwood of Chicago, Dr. Livingston C. Lord and Dr. Frank G. Smith of Chicago.

BROWNE INDICTMENT UPHeld.

Sangamon County Court Also Refuses to Quash Three Bribery Cases.

Springfield, May 4.—The motion to quash the indictments in the case of Representative Lee O'Neill Browne of Ottawa, Representative Robert E. Wilson of Chicago, Louis D. Hirschman of Pittsfield, member of the state board of equalization, and Frank J. Traut of Beardstown, in the legislative bribery probe, was overruled by Judge Creighton in the Sangamon circuit court. The four men are indicted on the charge of conspiracy to bribe in connection with a fund raised among the fishermen along the Illinois river to defuse legislation for the regulation of fishing.

HYDE RESIGNS NEW YORK POST.

Mayor Says Will Accept the Resignation With Regret.

New York, May 4.—Mayor Gaynor acknowledged receipt of the resignation of Charles H. Hyde as city chamberlain. He replied that if the chamberlain insisted, he should have to accept it with regret.

Doctor Parker Heads S. A. R.—Louisville, Ky., May 4.—Dr. Moses Greely Parker of Lowell, Mass., was elected president general of the Sons of the American Revolution at the annual congress here. Doctor Parker succeeds William A. Marble of New York.

New Spring Wall Papers

The line is too comprehensive and varied to describe here, but from wall paper at 5c per roll to the most costly imported \$5.00 per roll you will find our 1811 line attractive, carefully selected, full of life and beauty and more reasonably priced than you anticipate. We have endeavored to surpass all previous efforts and feel confident that we have succeeded.

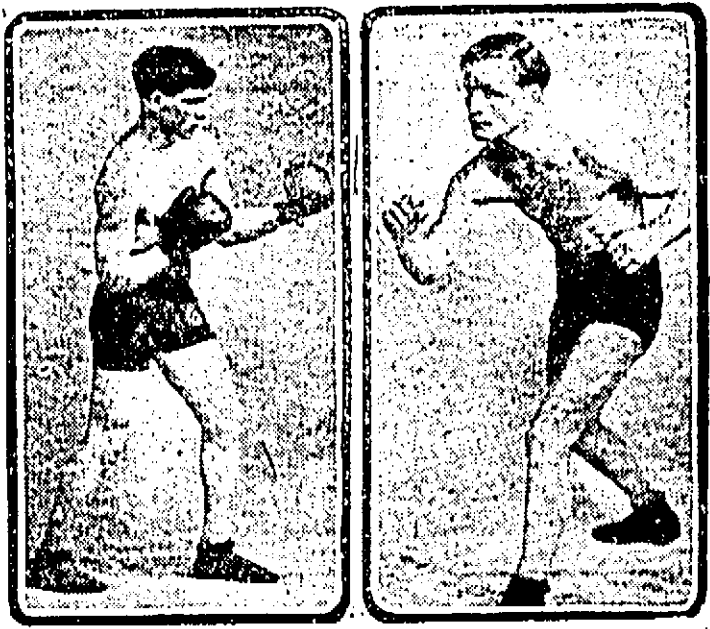

New Method of Display

We have a new method of displaying the better grades of wall papers, a 40-wing fixture. This shows a complete section of the paper all put up and gives a perfect idea of how your paper will look on the wall. 40 new styles are displayed on this new fixture.

Special Books of Wall Paper at Half Price

We have taken all odd lots of wall paper on hand and made them up into one book. These are priced at half. They consist of this season's showings and some from last season, but in this book there is only enough for one or two rooms in each kind of paper. Every paper in this lot is a great bargain. Come in and see them. You can save half the cost.

SCHEDULED FOR TEN-ROUND GO.—AT LEFT, PHIL BROCK. AT RIGHT, OWEN MORAN.

Canton, Ohio.—Phil Brock of Cleveland and Owen Moran are scheduled to fight ten rounds in Canton, Ohio, the night of May 2. Brock, a contender for the lightweight championship, expects to put up the best battle of his life and has been training faithfully for weeks. Moran also is training

hard for this battle, for he realizes that Brock is a fast man. Brock has fought several of the big men of the ring, including Packey McFarland, who knocked him out in seven rounds, and Young Corbett. He went 25 rounds to a draw with Freddie Welsh, the English champion.

Morgan & Wright NOBBY TREAD TIRES

"The Knobs Will Stop Your Skidding"

Will Do This For You:

Give You Powerful Skidding Protection

The big, thick, tough rubber grip the slipperiest road or pavement with bull dog tenacity, preventing both slide slips and drive slips. They hold fast even on wet, greasy asphalt pavements or roads covered with snow or mud. That means much to you.

In decided contrast to other forms of non-skid tires, Nobby Treads give the same effective slipping protection through a good part of the tire's life. The knobs will not wear off in a few hundred miles of service, leaving you a ragged looking plain tread for which you have paid a fancy price.

They provide you with skidding protection that you will always find WHERE YOU WANT IT WHEN YOU WANT IT—not tangled up in the bottom of the tool box, or still worse back home in the garage. They do away with the trouble, expense and excessive tire wear always attending the use of chains.

Give You Long Troubleless Service

In wearing quality, Nobby Treads have never been approached in pneumatic tire construction.

Differing from the usual method of making non-skid tires—squeezing the stock of a plain tread up into projections or ridges—in making Nobby Treads, additional stock is used—enough to form the knobs.

When the knobs are finally worn smooth, a plain tread still remains—good for many more miles of service.

Vulcanizing

Our work is fully guaranteed to give the following service: Retreads to last for 2,000 miles; rebuilds to last for 2,500 miles.

Tragic Dream Came True.
To dream of being mangled by a locomotive and to have that dream come true shortly after he had related it to his companions was the experience of Wilmer Johnson, of Phoenixville, Pa. While off his engine it began to move, and the enactment of the dream came true, as he jumped for the running board, but missed it and fell under the wheels.

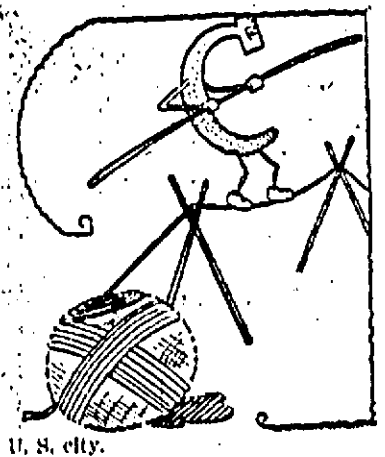

Test for Corn.
After corn has been pulled for hours or days it undergoes slight fermentation and flavor, if not digestibility, is injured. Pulled and put into large barrels or bulk, it becomes hot and may be ruined. Experts look at an ear of corn and tell all about it, but people in general ought to open the husk, try it with the thumb, and if the milk squirts into the eyes it can't be very bad.

Checking Motion of Ship.
In actual practice the rolling of ships in the sea has been reduced from 11 per cent, to 2 per cent, by the invention of Herr Fialin of Hamburg. His system makes use of water tanks extending through the hold transversely from one side of the boat to the other and the passage of the water from one side of the boat to the other effectually checks the motion of the boat.

Tactics.
So far as history gives us any information on the subject, the father of "tactics," in the military sense, was the great Theban general, Epaminondas, who, at the famous battle of Leuctra, B. C. 371, fought between the Thebans and Spartans, for the first time introduced the scientific mode of fighting. Prior to that time the universal rule was for the opposing armies to face each other and fight it out by sheer brute force and bulldog tenacity, without any particular regard for scientific principles.

Adam and the Apple.
The old marchioness of Salisbury recently was at church, a rare thing with her, and the preacher, speaking of the fall, observed that Adam, excusing himself, had cried out: "Lord, the woman tempted me!" At this quotation Lady Salisbury, who appeared not to have heard of the incident before, jumped up in her seat, saying: "Shabby fellow, indeed!"—Memorist of the Duchess of Dino.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON.

MUCH of the darkness of our lives is due to our walking in our own shadow. And our shadow will never trouble us when we walk towards the light.

There is a big pot of fluffy yellow daffodils on my working desk. Yesterday morning when they were being watered they were accidentally turned away from the sun.

In the middle of the forenoon in a pen-silencing moment, I gazed at them and was brought out of my abstraction to realize that these yellow blooms were slowly turning their faces back towards the sun.

By noon they had completely accomplished this tremendous—for a flower, of course—change.

Brave little daffodils.

Wise little daffodils.

How much wiser than many, many people.

A neighbor of mine lost her little baby six months ago.

It was a beautiful pink and white and gold baby. It was cruel, hard to lose it, torture to have it taken from the warm, cuddling place of her arms and put away in the cold, indifferent earth.

My neighbor's grief hung like a pull on her home. Her manner is as the sombre fluttering of craps on a door. There are four other beautiful children in that home. They are enough to make sunshine anywhere. And they need their mother's companionship. They suffer from the depression of her determined grief. I wonder how long she will persist in facing the dark corner of her loss instead of turning towards the sunshine of her great possessions.

You see she is not as wise as my daffodils.

Every life has its dark corner of loss or deprivation or unfulfilled desire and ambition.

Every life has its sunshine of human beings to love and to be loved and needed by, of work to do, of a religion to be felt, of friendship and pleasure to enjoy.

There are times, of course, when circumstances face us towards that dark corner for a time.

That is inevitable.

But to grow, facing it, is not. And if we permit ourselves to do so, our lives will lose their spring and radiance just as surely as my daffodils would have lost their color and freshness and faded before their time if they had not turned back towards the sun.

Sometimes it is a great effort to turn away from that dark corner, I know, but think of the persistent effort my daffodils made.

Wise little daffodils.

Brave little daffodils.

How much wiser they are than many, many people.

The Katherine Kip Editorial

BE SINCERE WITH YOURSELF.

The poet wrote that men are "architects of their own fortunes." How true this is man or woman rarely realizes until the full, rich years of life are passed and the harvest period is reached.

The old injunction said, "As ye sow so shall ye reap," and this is as true of our rewards for good deeds as it is for bad ones.

If we sow insincerity we must expect to reap insincerity. It is impossible to make a rose grow from a thistle seed. So, too, it is impossible to make a symmetrical life develop from insincerity and disorder.

Lowell wrote: "No man can produce great things who is not perfectly sincere with himself." And the person who does not put his best in all he does is not sincere or honest with himself. One may think that he can slight his tasks and make up for it tomorrow, but he will find that there is no such thing as tomorrow. When the sun rises on another tomorrow it will be today with yesterday's tasks uncompleted. More than that, today's tasks are likely to become like-some because of the added responsibilities put upon one by the left-over duties from yesterday.

If we listen to a beautiful musical composition we know that it is beautiful because it rings sincere in every part. If it so happens that there is insincerity anywhere, the composition is spoiled for the listener. Every piece of art has its message for the world, and if the composer of a musical piece has not been sincere the message he intended to send out is lost.

Those who take pleasure in reading know without any limitation from any one else whether or not an author was sincere. The whole story is told in the effect of the book. If he has not been sincere the book fails of its message and his work has been fruitless.

We may deceive ourselves for a long time, but we are the only person so misled. All the world knows when we are not sincere. It is told in our actions and our thoughts and so proclaimed to the world.

Sincere persons leave an impression of strength. There is little questioning of their ability to do things, be-

cause the indication of their possibility is shown in their every action. There is a vast difference between earnestness and conceit. The one builds up; the other tears down. The one makes for efficiency and the other only makes for defeat.

But as long as we are honest with ourselves, as long as we are sincere in our efforts, as long as we want to do things in the right way, there is little danger of our failing from grace. Be earnest, be sincere, no matter what your work. The rewards will come and they will be worth while.

JUST COME HERE.

COMING DEAR.

BORN A BARDARIAN.

May 4.—The Emperor Justinian was born May 4, 483. Though born a barbarian he received a new education in Constantinople as a protégé of his uncle Justin, and his learning was of great benefit to that childless monarch. When Justin died in 527, Justinian succeeded to the throne without any opposition. His reign was filled with great accomplishments of peace and war. He devoted his talents to the simplification of the laws of his country and brought order out of chaos. He was also an ardent adherent of the church and made constant warfare against the heretics and the infidel. His efforts in this direction were responsible for the forcible baptism of 70,000 persons in Asia Minor alone. During the 38 years of his reign he was a ruler of high ability with wonderful activity of mind and tireless energy. His one weakness was the ease with which he was led by his wife Theodora, whose influence was bad in every way and is the one blot on the fame of what is otherwise regarded as the greatest Roman monarch.

When May is gone, of all the year The pleasant time is past.

May Housekeeping.

Let us plan our housekeeping and sewing so that these lovely days of May and June that pass all too quickly may be spent in the open air. If the busy housewife will not allow herself a change of scene, even if it is only from the kitchen to the porch or garden, she will find that the oppressive days of summer will be most wearing to the tired nerves.

Plan the sewing so that it may be taken out into the open, where the fresh air, sunshine and bird songs may have their influence. Many a meal can be eaten out under the trees and the whole family have a share in its preparation.

Helpful Hints.

Bits of cake, doughnuts and bread of all kinds may be soaked in warm water and added to the steamed brown bread mixture. A few prunes will improve the bread and will take the place of raisins.

Soup should never be rubbed directly on flannels. Dissolve it in a little hot water and add as needed to make a soda. Rain water should always be used when possible in the washing of flannels.

Let us protect ourselves and families from the dangerous housefly and not let him wash his feet on our food.

Sleep in a well-ventilated bedroom with fresh pure air coming in all the time, and many of the colds will be avoided. Night air seems to be an especial terror to many, when it is all we have to breathe at night.

Lack of ventilation in sleeping rooms, the superstitious dread of cold air, is responsible for a large majority of tuberculosis cases all over our country. It seems a pity that in small towns and country homes where there is an abundance of fresh, pure air, that the value of it is not appreciated.

The Reason.

"Do you think the boy will say what he sees put in the sausage?"

"No, he's only thankful he can't put into them himself."

Electricity to Season Wood.

Wood is seasoned in France by electricity.

Entertaining Susan's Beau

By Byron Williams

When my grandma was young, one day a young courtier came that way! His wealth was held close to the sea And he was great as he could be! Said he: "I offer you my hand And all my riches, for your hand!" But grandma told the courtier: "Nay!" And he went sadder on his way! That night my grandma came, and he Was just as poor as he could be! And grandma said to him: "Good-bye! Before my grandma understood! And then he offered all he had— A great big heart that was not bad, A love as tender and as true As my own sister has for you!" "Wasn't it a lovely thing to say?" My grandma took him away! I heard my grandma say to him: "This morning when they talked of you: 'It is not wealth that makes the man.' And Susan blushed right through her hair! If you would try your luck to-day, I'll let you get her, anyway!"

DAILY DIET AND HEALTH MINTS

By DR. T. J. ALLEN

Food Specialist

DEATH FROM OVEREATING.

"Dined, Then Died," is the terse heading of the report in an Oregon newspaper of the death of a pioneer following a re-union dinner recently. Over-

eating is more frequently the cause of death than is generally supposed. Many cases of apoplexy and of "heart failure" would be more correctly so diagnosed.

A young person in vigorous health can, for a time, overeat, and mix foods indiscriminately, without apparent injury, but old people need to be more careful to avoid overeating, and eating a great variety of food at a meal. The average person past 70 would do well to adopt a diet chiefly of stale whole wheat bread and milk, as Metchnikoff's investigations into the means of prolonging life would indicate.

New Contest for Women Readers

Now that every mail is bringing in menus from those who entered that contest, the interest begins to center upon the garden contest which closes this week on Saturday. The menus for the twenty-one meals arranged from the April recipes, will prove most interesting reading for the housewives of the city and should be able to give them some excellent ideas for their household.

The weather is now warm enough for planting and working in the garden. In fact some have already the pleasure of seeing their "market garden" of green "stuff" peeping above now, though, if you have the plot. The fact that the children of the city, to the number of over five hundred, have entered the contest for prizes offered by the Twilight Club for the beautifying of the city, will make many a mother ambitious not to have her children surpass her own efforts in the garden.

The present contest is to enable the average housewife, with a small plot of land at her disposal to have a dainty flower bed where sweet peas may be gathered, or a bit of a garden where green, fresh vegetables, picked while the dew is on them, can be utilized at the table.

Write of your plans, of your failure, of your success. Put your thoughts down on paper. Write on one side only and have the article at The Gazette office by Saturday, May 21st.

Confine your article to about two hundred words, writing on one side of the paper only. Sign your name and address at the end and if you are fortunate you will win one of the prizes.

First prize—One dollar.

Second prize—"Silverhold," silver cloaker.

Third prize—Fifty cents.

SIMPLE DECOLLETE MODICE.

Everywhere one sees the klump blouse, and almost always they are pretty and graceful. Especially is this so of the one we show today with its simple trimming of blue folds of satin, which border the shirt front pieces. These end in points falling a trifle below waist line and catching into a cold tassel.

The chic little cap of lace is a forerunner of fashionable headgear for summer wear during the coming summer. A wreath of tiny roses and forget-me-nots adds the touch of face.

One of the prettiest designs for the use of the pretty lingerie materials is suggested above. It is simple but wonderfully effective, and if the material is white, with a colored embroidered border, make the grille of velvet ribbon matching the border; if material and

border are same shade, use black velvet for the grille.

STRANGE TALES ARE TOLD OF PROWLERS FRIGHTENING GIRLS

Local Alumni of the State University Much Aroused by Tales That Come From Madison.

While much has been printed about the midnight prowlers that have climbed into the windows of sorority houses at Madison, frightened girls rooming in the house have poured in to the windows of Ladies' hall and otherwise created considerable disturbance about the state, still there is a good deal of truth in it all and not half that has occurred has ever been printed.

One Janesville man, whose children are at the university as students, has made the matter a personal one. Not only has he appealed to the governor of the state, to the president of the university, and to the board of regents, but with other fraternal parents is demanding that the city of Madison itself take some radical steps to protect the students from lawless and midnight visitation.

Janesville has always furnished its quota of students for the university. Many alumni and former students who reside here have been loath to believe in the tales told. Now, however, they are aroused. As one prominent alumni said yesterday: "It is outrageous. Why, I have heard tales within the past few weeks that seem almost incredible. Mismanagement of affairs, creating a political machine at the expense of the taxpayers of the state, to the detriment of the morals of the students seem to prevail. Something ought to be done and done quickly."

Grant U. Fisher, a member of the assembly from the Janesville district, stated on his last visit home that the legislators themselves were aroused at the tales told and the reports current and he would not be surprised to see a most rigid investigation by the legislature before they passed any appropriations asked for. With the present furore as to conditions that exist it is certain that an investigation will come.

It is not so much the mismanagement of university affairs that troubles the parents of the state as the stories of unusual happenings in sorority houses and elsewhere adjacent to the campus that disturb the parents of students now in attendance there. The following is a dispatch received by the Gazette from its Madison correspondent that does not seem possible. It was held over until an investigation could be made as to its truth or falsity.

As far as can be learned there has

Our Increase Depends Upon Results

The Gazette wishes to establish confidence among its patrons so that they will be in a position to suggest the proper procedure in all matters of advertising in its columns, with the sole view to making the advertising profitable to the patron. Our revenue depends upon satisfied customers. More time and work and thought are usually expended upon a new account the first year than the income from that account will cover. In other words, it is often the case that we actually lose money getting an advertiser started, counting the actual time put in on it, but once advertising is being done right it does not require so great an effort on our part to keep the account going. This is true for two reasons. If the advertising is profitable and has proven so, it requires no effort to sell the space. And, after the advertiser is well started the advertiser himself writes the ads, along the lines that we have shown him to be profitable.

It does not cost a great deal of money to make the right kind of a start in advertising, and there is but a

Start Intelligently

slim chance of not making good, if you will let us analyze your proposition for you and point the way to successful advertising you will know in advance that your business gets the value of the general publicity, and you will know that the advertisements will make a good favorable impression upon the public. These two factors alone are worth considering, but add to that the profits derived from a successful advertising campaign and the advertising is doubly profitable. Add to that still, the knowledge of the many many great advertising successes here in Janesville and in every city in the United States where good newspapers are published, and it is no wonder that this is an age of advertising. Look where you will, the biggest merchant in most every line of merchandising is the biggest newspaper advertiser.

(To Be Continued.)

been no case of compelling the young girls to dance at the request of the midnight visitor in any of the sorority houses, but the remainder of the report is true in the main as far as could be learned. Private individuals have employed detectives to run down all clues and these detectives reported yesterday they were on the verge of making a startling disclosure.

The dispatch said that a series of accidents by a mysterious nocturnal marauder in the university quarter has aroused those concerned to such an extent that student vigilance committees are being organized to protect coeds from further nervous shocks incident to the unexpected and unwelcome visits of the stranger.

No menacing has become the conduct of the so-called "Jack the Peepers" that a number of private detectives have been retained to safeguard sorority houses and others unguarded, by male occupants in the university vicinity.

Prior to the advent of the detectives on the scene, students were occupying the chapter rooms of each of the sorority houses to prevent any unlawful entry by the brave but foolhardy stranger. In none of the events has he come close to being captured.

The first and most atrocious offense was the entry of the stranger into the house of one of the most exclusive chapters for women. As evidence of his visit there he left a plug of chewing tobacco and great gobs of spit plastering the polished floors. Before the police came he beat a hasty retreat through the rear door of the house and no clue could be had as to his identity.

There is some speculation to the effect that he is a disgruntled male student who objects to the presence of coeds upon the campus and in the classroom, and is taking this means to drive the fair ones away from Madison. Whether or not this is his object, he has accomplished that, for some of the more timid women have departed for their homes.

At another chapter house, thought by the occupants to be impregnable because of its barred windows, he appeared a few nights ago and forced two popular and well known leaders in college society to dance for his delectation, and only in their night robes.

Until the detectives came it was not an unusual thing for residents of Chubbournie, the girls' dormitory, to find this man perched upon the fire escapes and peering into the rooms. This building was provided with strong iron bars following upon similar occurrences a year ago, so that the only danger was that to the nervous systems of the young women.

Heretofore males were employed to answer the calls and to not in other capacities at the hall, but these have been displaced by men retained by Business Manager Humphreys because of the excitement.

These illustrations give an index to the unusual conduct of this peculiar type of criminal who seems to be seeking not money nor jewels, but excitement. The common theory is that he is a pervert, and but for this fact he might be easily dealt with should he fall into the hands of the aroused students, who are hopeful that he will be apprehended.

BIRD DAY WILL BE OBSERVED IN CITY

Feature of Annual Arbor Day Here Is Enthusiasm in Yard Improvement Contest—Exercises in Schools.

By a proclamation issued by Governor McDevore, tomorrow is to be the annual arbor and bird day in this state, and as a result special exercises will be held in all of the public schools in the city. The proclamation of the state executive which made Friday, May 5th the day set aside for birds and trees, is as follows:

"By authority of law and in harmony with custom, I, Francis E. McDevore, governor of the state of Wisconsin, do hereby designate Friday, May 5, as Arbor and Bird day. To create in the children of our schools an interest in trees, shrubs, flowers and birds and to cultivate an appreciation of the beauty of nature, Arbor and Bird day has been established. It is therefore recommended that this day be utilized by the people and schools in making their surroundings attractive by the planting of trees, shrubs and flowers.

In the hope that there may be an earnest and intelligent effort to outline the sympathies and services of the people, more especially in our rural suburban communities, in improving the surroundings of homes and school houses, I hereby publish this proclamation."

The day will be observed in many different ways in the various grades and schools. In the high school the botany classes will take a trip up the river among the flowers and trees of the garden. Among the primary grades all over the city there will be recitations and songs in the afternoon, appropriate to the occasion. Several of the teachers in the lower grades are planning to take their young pupils on a picnic if the weather permits. The practice of planting some shrub or vine in the school yard has been abandoned this year as most of the yards are well planted.

This custom has been somewhat supplanted this year by the general yard contest for school children conducted by the Twilight club. It was announced this morning that over 500 children had entered the contest and that the interest and enthusiasm among the little ones had gone beyond the hopes of the promoters. This contest will go a long way towards the beautifying of the city at large and with the added stimulus of the exercises tomorrow and the good influence of the proclamation of the governor much may be expected from the efforts of the children in the city.

UNION BANQUET OF DIBLE CLASSES AT THE Y. M. C. A.

Tonight a banquet will be served at the Y. M. C. A., the members of the various Bible classes uniting on this occasion. Prof. T. M. Knudson will be the toastmaster and an attendance of about sixty is expected. The program consists of a mandolin and guitar duet by Fred Phalmer and George Moore and speeches by Whithorn Metcalf, Roy Cannon, Dr. J. V. Stevens, Harold Jones and Harold Mohr.

Put Confidence in Nurse.

Very small experience of practice is needed to show that in serious illness the patient's friends generally ask the nurse if she thinks the doctor "really understands the case" and they are much influenced by her opinion and the manner in which she gives it—London Hospital.

Particularly the Ladies.

Not only pleasant and refreshing to the taste, but gently cleansing and sweetening to the system, Syrup of Figs and Elixir of Senna is particularly adapted to ladies and children, and beneficial in all cases in which a wholesome, strengthening and effective laxative should be used. It is perfectly safe at all times and dispels colds, headaches and the pains caused by indigestion and constipation so promptly and effectively that it is the one perfect, family laxative which gives satisfaction to all and is recommended by millions of families who have used it and who have personal knowledge of its excellence.

Its wonderful popularity, however, has led unscrupulous dealers to offer imitations which act unsatisfactorily. Therefore, when buying, to get its beneficial effects, always note the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package of the genuine Syrup of Figs and Elixir of Senna.

For sale by all leading druggists. Price 50 cents per bottle.
